

WAITING PAYS OFF!

If you are having sex, you could end up having a baby before you are ready. Having a kid too soon can mean you and your child won't have the same options and chances. Teens who wait until they are older to have children are more likely to:

- ✓ Finish high school.
- ✓ Find a good job or go to college.
- ✓ Earn enough money to live comfortably.

Waiting may also mean:

- ✓ You'll have more support from friends and family.
- ✓ It will be easier to maintain a long-term relationship.
- ✓ Your child will have more advantages.

WAITING NOW MEANS YOU'LL HAVE MORE TIME TO BE A TEEN.
